Choosing and sizing male cock rings

Male rings **cannot be returned** and therefore selecting and sizing the right ring for your needs is very important. Some rings are worn at the base of the penis (cock rings) while others are designed to encircle both the penis and scrotum together (cock and ball rings) for example the Velv'Or ring JNaja. Many cock rings are adjustable or made from a stretchy material, however some cock rings are made of a rigid material (e.g. glass, metal or nylon fibre like the Velv'Or ring JNaja). A rigid cock ring offers no flexibility and is therefore NOT recommended for the beginner. They can't be stretched or cut off if you need to remove them quickly, so experience is essential for their safe use.

Measure yourself while erect using a tape measure or piece of string to obtain the circumference measurement of your penis or penis and scrotum, then divide this measurement by 3.14 to obtain the measurement in diameter. The measurements provided in this brochure are in diameter. To fit properly, a cock ring should be snug but big enough to get on and off easily. In order to offer enough constriction a rigid ring should be 0.25 inches - 0.5 inches smaller than the measured diameter of your penis.

Velv'Or Male Ring ►

The Velv'Or Male Ring JNaja is a solid state penis ring featuring an ergonomic design that follows the natural curves of the male body for comfort and performance. This penis ring can help prolong erections for up to thirty minutes, help men achieve a bigger erection, and improve sexual sensation.

It can even be worn the whole day thus giving the wearer the pleasure of being enringed while the perineum is constantly being massaged!

The Velv'Or will increase sexual drive and appetite, making the wearer feel more manly and confident. The JNaja gives a constant firm pressure on the perineum, resulting in harder and longer erections and stronger orgasms. Available in three sizes.

XL Sucker Pumps

Now it's easier than ever to pump your cock to a bigger and better size! The **XL Sucker** range of Penis Pumps comprise of a plastic cylinder that fits over your penis and helps you get an erection - or a bigger erection - by suction. As the air in the cylinder is sucked out, the vacuum pulls your penis into the cylinder and more blood rushes into the penis. After removing the cylinder, the result is a temporarily bigger dick and a more impressive erection! Built to add length and girth to the penis, or to achieve and maintain an erection, your XL Sucker creates a vacuum in the chamber which then draws blood to the penis making it larger. Pump users usually report an increase in their length or girth after regular penis pump usage.

Bathmate

The **Bathmate** penis pump is the world's first water-based device for enlarging the penis, with instant sustainable results - and it's a whole lot of fun too! The device is filled with water and placed over the penis, sealing at the base against your body. The gaiter acts as both a seal and as the pump mechanism. As you compress the device against your body, excess water is expelled causing a hydro vacuum which is much stronger than you could create with an air based vacuum pump. Over time it is thought that most individuals can gain between 1-3 inches in length with a 25% increase in girth!

Vacuum Developers

Clean Stream Inflatable Enema Plug ▼

The Inflatable Enema Plug is an ingenious idea which is very simple to use. The smooth silicone plug slides easily into place and can be gently inflated using the hand bulb. When the desired level of inflation is achieved the plug's base sits tight against the anus to create a water tight seal. Then water or other liquid can be introduced to the rectum, either by using one of the Clean Stream bag enema systems or an In-Line Accelerator Pump, creating a very satisfying feeling of being filled. Then, when the time comes to end the session, the pressure valve is released deflating the plug and releasing the fluid.

Gun Oil

Following his return from Kuwait, a former Marine and founder of **Gun Oil** recalled soldiers using CLP liquid, usually used to keep firearms and other weapons clean and firing accurately, as a perfect personal lubricant when relief was necessary. Knowing of CLP's long lasting properties, the founder greatly improved on this concept by changing the ingredients to a hypoallergenic, topically safe, user-friendly formula, ideally suited for heightening sexual pleasure when used for intercourse or personal use. The result is a selection of unsurpassed Gun Oil products that always deliver a highly satisfying experience and elevate the vital expression of masculine fulfillment.

TRANSVESTITE FICTION

NWL #7 - Stairway To Heaven

The young Earl of Harwood goes to stay with his Aunt for six months. She has very strict ideas about how to act and dress, and he soon finds himself totally sissified and under complete feminine control.

NWL #9 - Suzette's Transformation

His wife was, to say the least, very self assured. She was wealthy, ran her own business and every aspect of their life together. When she announced that she was no longer happy with the state of their home and that he would have to give up his job to take care of it he was shocked, but not as shocked as when she told him he was to become her house wife!

NWL #17 - Rayburns Transformation

Amanda liked girls. Unfortunately her mother needed her to marry and that was the last thing she wanted. And then she met Rayburn. Dear sweet submissive Rayburn. He simply couldn't do enough for her and the worse she treated him the more he came on at her like a little puppy dog. Surely with Rayburn she could have the best of both worlds.
